

Modo Infraestructura

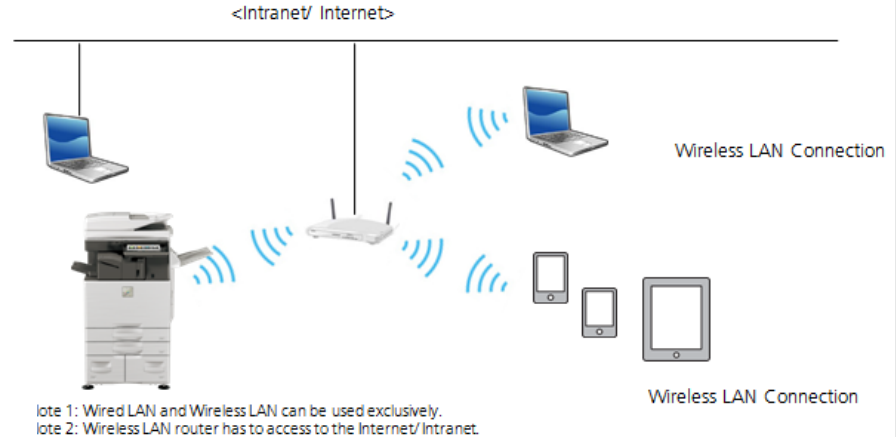

Los usuarios pueden conectar fácilmente las nuevas 4070N/3570N/3070N con dispositivos como móviles, PC, smartphone, tablet vía wireless LAN router.

Wireless Access Point

- Note 1: Up to 5 PCs/smartphones/tablets can be connected to MFP simultaneously.
- Note 2: Both Wireless LAN and Wired LAN can be used simultaneously.
- Note 3: PC and iOS/ Android/Windows mobile devices as slave CANNOT communicate among them in the above wireless LAN environment.
- Note 4: Wireless LAN connected devices CANNOT be communicated each other. I.e. wireless LAN connected devices only communicate with MFP.

Infrastructure mode

Punto de acceso Wireless

El punto de acceso Wireless permite acceder a los dispositivos móviles que no están conectados a la red de la compañía, para escanear o imprimir.
